

Technical Details

Operating conditions	
Shaft surface speed	5.1 m/sec
Temperature range	-29°C + 121°C
Maximum pressure	0 to 0.48 Bar

DESIGN

BP3M is a general purpose seal with a spring loaded outside lip. It features a non-metallic composite for a tight press fit on shaft. Due to its compact and flexible design, it can be easily installed.

FEATURES

- Flexible for easy installation
- Long life
- Spring loaded outside lip
- Comes in a wide range of sizes

MATERIAL

Seal design comes in a variety of materials and sizes. For more information, please refer to MSDS datasheet.

APPLICATIONS

For oil retention or grease retention.

General applications:

Electric motors, gearboxes, pumps, fans, runout tables, paper rolls, mixers, work rolls and custom equipments.
