

Technical Details

Operating conditions	
Total eccentricity	0.51mm
Pressure	25 m/s
Temperature range	0 psi/bar
Axial movement	0.51 mm
Shaft/bore tolerances	± .05 mm

DESIGN

BP99 is a general purpose seal with a flanged design. The seal design excludes heavy water spray and dry contaminants from the bearing cavity.

BP99 also retains grease and oil splash (oil level must be below inboard oil drain-back or non-flooded). It is best for vertical down applications.

FEATURES

- Excludes heavy water spray and dry contaminants.
- Long life
- Comes in a wide range of sizes

MATERIAL

Seal design comes in a variety of materials and sizes. For more information, please refer to MSDS datasheet.

APPLICATIONS

Light to medium duty applications
