

Technical Details

Operating conditions	
Working pressure	≤ 10 bar
Surface speed	≤ 1 m/s
Working temperature	$-33^{\circ}\text{C} + 80^{\circ}\text{C}$

DESIGN

PAV1 has a simple seal design with an easily snapped in grooves. Under non-lubricated systems, it is essential to apply an equally distributed film in the valve bore and in the cycliner tube prior to assembly in order to obtain an optimum service life.

FEATURES

- Flexible for easy installation
- Long life
- Comes in a wide range of sizes

MATERIAL

Seal design comes in a variety of materials and sizes. For more information, please refer to MSDS datasheet.

APPLICATIONS

Light to medium duty applications
